In today's busy world, who has time to go to medical school? It's so expensive and can take years to complete. What a hassle! Well, you're in luck because **LET'S PLAY DOCTOR** by **Mark Leyner and Billy Goldberg, M.D.** (Three Rivers Press original paperback, December 2, 2008, \$14.95) is just what the doctor ordered. All the information you've ever wanted, and plenty you never thought to ask for, about how to do your own doctoring, is in convenient paperback format. It's a full medical school curriculum for the bargain price of \$14.95.

Following the runaway successes of *Why Do Men Have Nipples?* and *Why Do Men Fall Asleep After Sex?*, Mark and Billy are back with their own hilarious prescription for all your medical needs.

Wash up, put your scrubs on, and dissect topics such as:

- ✓ Popular herbal “smart drugs.” Do they really work?
- ✓ How many pounds of dust does a person breathe in his/her lifetime? (40!)
- ✓ What happens to your body chemically when you fall in love?
- ✓ How to diagnose everything from Popcorn Worker’s Lung to a rectal prolapse.
- ✓ How many times does a person blink in a day?
- ✓ What’s the deal with third nipples?
- ✓ Why do grandparents always eat hard candy?

Filled with fascinating medical facts, **LET’S PLAY DOCTOR** is also eminently useful: from Do-It-Yourself surgery procedures to being well-informed enough to write your own “Get Out Of Work” Doctor’s notes, you’ll find practical advice on every page. The Hospital Flashback sections will have you cringing in awe of what doctors see on a daily basis: Toxic Sock Syndrome? Check. Egg stuck in patient’s rectum? You bet. Incredibly appalling tattoos? Of course!

This is the most convenient medical school you’ll ever find. And when you have satisfactorily completed your course, the back of the book features a tear-out diploma, suitable for framing.
